

March 6, 2021

To the Government Administration and Elections committee:

I write to express my emphatic support for making ballot drop boxes a permanent part of elections in CT. I also support absentee/mail-in voting for all voters and reforms that expand and support voting rights for all eligible citizens—early voting, automatic voter registration, etc.

The 2020 presidential election was fair and safe. Absentee/mail-in voting worked extremely well.

It is good for our democratic republic to make permanent changes that gave voters more options for exercising our constitutional right to a vote.

Please do all you can to protect the vote in CT!

Thank you,

Patricia Klindienst
